# 1. INTRODUCTION

## 1.1. Overview

In compliance with the Urban Area and Cities Act 2011, amended 2019, the municipality Annual Development Plan was prepared to guide development. Categorically, it gives more specific annual rationale and justification for urban development in the 2024-2025 financial year and it includes the Urban Development Grant (UDG) for the year 2024-2025.

## 1.2 Development Plan Preparation Team

This Annual Development Plan was prepared in a consultative manner between the Municipal Board and a technical team from the department of municipal administration and urban development. The team members comprised of: -

<b>Karuri Municipality Board</b>
1. Rosemary Muthoni Wainaina- <b>Chairperson</b>
2. Bsp. Gerishon Kibarabara Ngugi-Member
3. Samuel Gichamba Wairire -Vice chair
4. Nephath Mwaura Kagwi -Member
5. Grace Wanjiku Ndugi--Member
6. Robert Ngaruiya Chutha -Member
7. Salome Wainaina -CECM
8. Martin Kangiri- CO
9. Philip Mubea- Municipal Manager

Signed by: -

Municipal Board Chairperson..........Date.....<sup>07</sup> 1<sup>st</sup> AUG, 2024.....

Municipal Manager..........Date.....01-08-2024.....

County Technical team comprised of: -

<b>S/No.</b>	<b>Name</b>	<b>Role</b>
1	Peter karanja	Engineer
2	Erick Matata	Social Safeguards
3	Martin Kung'u	Urban Planner
4	Brian Mwangi	Accountant
5	George Ngaruiya	Industry & trade
6	Ivy Githaiga	Procurement officer
7	Jennifer Kamzeh	County DOSH
8	Josephine Wangui	County NEMA
9	Peter Wachira	M & E
10	Ann Ng'ang'a	Economist

### 1.3 Municipality background

#### 1.3.1 Municipality map and Location

Source: Department of MAUD 2024

Karuri municipality is located in the southern portion of Kiambu County and lies directly Northwest of the city of Nairobi which defines its Eastern and South-Eastern boundaries. It borders the city of Nairobi to the south for about 20 km from Nairobi City, Limuru Municipality to the north and Kiambu Municipality to the east.

### **1.3.2 Municipality demographic characteristics**

Karuri Municipality covers an area of 81.08 KM<sup>2</sup> with a population of 236,400 as per the 2019 population census (KHPC).

### **1.3.3 Economic activities**

Agriculture is a key economic activity in the municipality with 41% of the household engaging in it and occupying 64% of the land use within the area. Agro-based industries is also a major thriving economic activity in the municipality where coffee and tea processing industries occupy 24% of the land use. The municipality is also a major residential hub owing to its close proximity to Nairobi City CBD.

## **1.4 Citizen Forum**

It is a constitutional requirement that the public be included in any development agenda. Thus, the municipal board organized a public forum on 27<sup>th</sup> June, 2024 at St. Martin De-Portes Karuri Catholic Church Hall. Specifically, the forum aimed at both enlightening the public on infrastructural development agenda of the department and seek their development aspirations and proposals. Thus, adequate sensitization and engagement was done. The invitations were done through places of worship, word of mouth, public barazas, social media, letters. Various citizen categories attended the public forum as indicated in the minutes of the forum (ANNEXE 1)

After a detailed presentation on the department's urban development agenda, projects prioritization and selection process, the public were organized into random groups through which they articulated the development challenges, the potential solutions and what they felt was most pressing. The public were asked to appoint a chairperson to lead the process and a secretary for note taking. These groups were randomly made by the participants being issued a note with a group number on arrival and after registration. Once the group session was over, a presentation by the group secretary on the issues raised and projects proposed.

On completion of the presentations from the groups, a session on special interest groups and unaddressed pressing issues was conducted. Here, the People with Disabilities were identified, and their views noted, which included the need for universal access in the municipality. Other groups included the youth (under 35 years), women representative among the attendants, residence associations and anyone with an issue they felt was not addressed. Moreover, the forum also had a question and session through which key issues were clarified through

appropriate responses.

## **2.0 Annual Development Plan Context**

### **2.1 Summary of the main objectives as identified in the 1-year Urban MADP**

The primary objective of the MADP is to address the urban challenges within the municipalities.

The secondary objectives of the MADP are summarized as:

- i. To allow for allocation of the scarce resources to priority projects and Programmes as determined by stakeholders of the municipality.
- ii. To enhance sustainable urban development and proper infrastructural maintenance.
- iii. To address the development needs for the municipality.
- iv. To give priority to projects to be implemented in the next 5 years as spelt out in the County Integrated Development Plan (CIDP 2023-2027)
- v. To create wealth, improve the livelihoods of the residents of municipality and specifically contribute to the overall municipality growth

### **2.2 Overview of the activities to be undertaken as per MADP**

- i. **Connectivity, Mobility and Accessibility** Upgrading of urban infrastructure including urban roads, non-motorized transport (NMT), storm water drainage, Integrated Solar Street Lighting (ISSL), urban markets, sewer reticulation, urban aesthetics/parks and solid waste management.
- ii. **Municipal Solid waste management (MSWM)** Solid waste: collection equipment (garbage tippers), skip bins, collection and waste bins, transfer stations, collection points, Garbage compacting trucks, skip loaders, Backhoes/front loaders. Community sensitization campaigns on improved MSWM.
- iii. **Wastewater and faecal sludge management.** Safe and emptyable public toilets/latrines, community septic tanks, emptying and transportation services and

equipment e.g., vacuum trucks, vacuum handcarts, sewer flushing trucks and others

- iv. **Water supply** Community connections (kiosks and storage tanks not exceeding 10m<sup>3</sup>), water reticulation systems
- v. **Storm water drainage** Urban drainage systems; flood control methods (along existing channels e.g., protection of drainage channels). • Rehabilitation of storm water drainage (drainage must have compliant outfall)
- vi. **Urban social and economic infrastructure** Urban greenery and public open spaces, social retail markets, community halls, childcare facilities.
- vii. **Fire and Disaster Management** Fire control stations and disaster management equipment (firefighting trucks, fire tenders, rehabilitation and/or construction of new firefighting station and facilities)

### 3.0 Investment Prioritization

Pursuant to section 20 of the UACA 2019 the board of the municipality is mandated to develop and adopt policies, plans, strategies and programmes, and may set targets for delivery of services

#### 3.1 Urban Board priorities

**Table1: Urban Board project priorities**

Location(s)/wards	Projects
<b>Kihara Ward</b>	- Installation of Cabro/bitumen at Gachie/Rivarori center including parking lots, bustage, drainage works, solar lighting. -Installation of Cabro/bitumen works kihara market Solar street lighting in Kihara ward -Build a bus stage around the market
<b>Karuri Ward</b>	- Installation of Cabro/bitumen in Banana/ Karuri town including parking lots, drainage works, solar lighting. NMT from Banana town to Raini shopping center (Cabro works) - Installation of Cabro/bitumen in Raini shopping center -Completion of Karuri - Njiku road -Installation of Solar Street lighting in Karuri ward urban centers
<b>Ndenderu Ward</b>	-Installation of Cabro/bitumen in Ruaka urban center including parking lots, market, drainage works and solar lighting -Installation of Cabro/bitumen in Ndenderu urban center including parking lots, market, drainage works and solar lighting -Installation of Cabro/bitumen in Karura urban center including parking lots, market, drainage works and solar lighting Purchase of skips in Ndenderu ward
<b>Cianda Ward</b>	-Installation of Cabro/bitumen in kawaida shopping center including

	<p>parking lots, market, drainage works and solar lighting</p> <p>-Installation of Cabro/bitumen in at Milimani shopping center- Dubai-Catholic ACK roads</p> <p>-Completion of Kawaida-Njunu road</p>
<b>Muchatha Ward</b>	<p>-Installation of Cabro/bitumen in Gathanga shopping center including parking lots, market, drainage works and solar lighting</p> <p>-Installation of Cabro/bitumen in Muchatha catholic church- Banana town including parking lots, market, drainage works and solar lighting</p>

### 3.2 County government priorities as per the CIDP

According to the Kiambu County Integrated Development Plan 2023-2027, the prioritized projects relevant to the department include the following:

- i. Trade, tourism and Industrial Development
- ii. County Roads & Transport that includes but not limited to:
  - a. Ensuring the county is well connected with an efficient, safe and reliable all-weather road network and Bus parks.
  - b. Provide safe, clean energy lighting and fire, disaster and emergency response in the county.
  - c. Provision and maintenance of safe, healthy and efficient green buildings, civil works and rural footbridges
- iii. County Public Works like sewerage reticulation
- iv. County Utilities in areas of need

### 3.3 Municipality Citizen forum priorities

The public forum led to the proposal of several projects which the participants felt were impactful. Thus, the projects in Table 2 were emphasized during the forum:

**Table 2: Citizen Priorities**

<b>Location(s)/wards</b>	<b>Projects</b>
<b>Kihara Ward</b>	<p>- Installation of Cabro/bitumen at Gachie/Rivarori center including parking lots, bustage, drainage works, solar lighting.</p> <p>-Installation of Cabro/bitumen works kihara market</p> <p>Solar street lighting in Kihara ward</p> <p>-Build a bus stage around the market</p>
<b>Karuri Ward</b>	<p>- Installation of Cabro/bitumen in Banana/ Karuri town including parking lots, drainage works, solar lighting.</p>

	<p>NMT from Banana town to Raini shopping center (Cabro works)</p> <ul style="list-style-type: none"> <li>- Installation of Cabro/bitumen in Raini shopping center</li> <li>-Completion of Karuri - Njiku road</li> <li>-Installation of Solar Street lighting in Karuri ward urban centers</li> </ul>
<b>Ndenderu Ward</b>	<ul style="list-style-type: none"> <li>-Installation of Cabro/bitumen in Ruaka urban center including parking lots, market, drainage works and solar lighting</li> <li>-Installation of Cabro/bitumen in Ndenderu urban center including parking lots, market, drainage works and solar lighting</li> <li>-Installation of Cabro/bitumen in Karura urban center including parking lots, market, drainage works and solar lighting</li> </ul> <p>Purchase of skips in Ndenderu ward</p>
<b>Cianda Ward</b>	<ul style="list-style-type: none"> <li>-Installation of Cabro/bitumen in kawaida shopping center including parking lots, market, drainage works and solar lighting</li> <li>-Installation of Cabro/bitumen in at Milimani shopping center- Dubai-Catholic ACK roads</li> <li>-Completion of Kawaida-Njunu road</li> </ul>
<b>Muchatha Ward</b>	<ul style="list-style-type: none"> <li>-Installation of Cabro/bitumen in Gathanga shopping center including parking lots, market, drainage works and solar lighting</li> <li>-Installation of Cabro/bitumen in Muchatha catholic church- Banana town including parking lots, market, drainage works and solar lighting</li> </ul>

### 3.4 Consensus on projects prioritized by the municipal board

After the plenary session through which projects were identified, a consensus development session led to a unanimous agreement on the following projects:

**Table 3: Consensus Projects**

<b>Location(s)/wards</b>	<b>Projects</b>
<b>Kihara Ward</b>	<ul style="list-style-type: none"> <li>- Installation of Cabro/bitumen at Gachie/Rivarori center including parking lots, bustage, drainage works, solar lighting.</li> <li>-Installation of Cabro/bitumen works kihara market</li> <li>Solar street lighting in Kihara ward</li> <li>-Build a bus stage around the market</li> </ul>
<b>Karuri Ward</b>	<ul style="list-style-type: none"> <li>- Installation of Cabro/bitumen in Banana/ Karuri town including parking lots, drainage works, solar lighting.</li> <li>NMT from Banana town to Raini shopping center (Cabro works)</li> <li>- Installation of Cabro/bitumen in Raini shopping center</li> <li>-Completion of Karuri - Njiku road</li> <li>-Installation of Solar Street lighting in Karuri ward urban centers</li> </ul>
<b>Ndenderu Ward</b>	<ul style="list-style-type: none"> <li>-Installation of Cabro/bitumen in Ruaka urban center including parking</li> </ul>

	lots, market, drainage works and solar lighting -Installation of Cabro/bitumen in Ndenderu urban center including parking lots, market, drainage works and solar lighting -Installation of Cabro/bitumen in Karura urban center including parking lots, market, drainage works and solar lighting Purchase of skips in Ndenderu ward
<b>Cianda Ward</b>	-Installation of Cabro/bitumen in kawaida shopping center including parking lots, market, drainage works and solar lighting -Installation of Cabro/bitumen in at Milimani shopping center- Dubai-Catholic ACK roads -Completion of Kawaida-Njunu road
<b>Muchatha Ward</b>	-Installation of Cabro/bitumen in Gathanga shopping center including parking lots, market, drainage works and solar lighting -Installation of Cabro/bitumen in Muchatha catholic church- Banana town including parking lots, market, drainage works and solar lighting

### 3.5 Recommended Projects to be prioritized

Following thorough scrutiny by the municipal board the following were the prioritized projects to be implemented.

### 3.6 Approved Projects by the County Executive Committee

After a detailed presentation to the County Executive Committee which was followed by a Municipal Board meeting, the following projects were finally approved for funding and implementation:

<b>Location(s)/wards</b>	<b>Projects</b>
<b>Kihara Ward</b>	- Installation of Cabro/bitumen at Gachie/Rivarori center including parking lots, bustage, drainage works, solar lighting. -Installation of Cabro/bitumen works kihara market Solar street lighting in Kihara ward -Build a bus stage around the market
<b>Karuri Ward</b>	- Installation of Cabro/bitumen in Banana/ Karuri town including parking lots, drainage works, solar lighting. NMT from Banana town to Raini shopping center (Cabro works) - Installation of Cabro/bitumen in Raini shopping center -Completion of Karuri - Njiku road -Installation of Solar Street lighting in Karuri ward urban centers
<b>Ndenderu Ward</b>	-Installation of Cabro/bitumen in Ruaka urban center including parking

	<p>lots, market, drainage works and solar lighting</p> <ul style="list-style-type: none"> <li>-Installation of Cabro/bitumen in Ndenderu urban center including parking lots, market, drainage works and solar lighting</li> <li>-Installation of Cabro/bitumen in Karura urban center including parking lots, market, drainage works and solar lighting</li> </ul> <p>Purchase of skips in Ndenderu ward</p>
<b>Cianda Ward</b>	<ul style="list-style-type: none"> <li>-Installation of Cabro/bitumen in kawaida shopping center including parking lots, market, drainage works and solar lighting</li> <li>-Installation of Cabro/bitumen in at Milimani shopping center- Dubai-Catholic ACK roads</li> <li>-Completion of Kawaida-Njunu road</li> </ul>
<b>Muchatha Ward</b>	<ul style="list-style-type: none"> <li>-Installation of Cabro/bitumen in Gathanga shopping center including parking lots, market, drainage works and solar lighting</li> <li>-Installation of Cabro/bitumen in Muchatha catholic church- Banana town including parking lots, market, drainage works and solar lighting</li> </ul>

**4.0 URBAN DEVELOPMENT PLAN AND BUDGET FY 2024 / 2025**

**Table 4: Proposed projects and tentative costs estimate for the Project preparatory, design and implementation**

<b>Table1: Municipal Development Budget FY 2024/2025</b>							
#	Activity*)	Timeframe		Budget			
		Start date	End Date	UDG(ksh)	Other-1 County Funding (ksh)	Other-2	Total
1.	Urban Improvement Project	Preparatory			-	-	-
	inclusive of cabro/ bitumen	Design	2024	2025		-	
	Roads, Non-Motorized Transport,	Implementation			195,896,680	5,000,000	200,896,680
	Storm Water Drainage, Street lighting, Market shades, commercial auxiliary shops busparks, urban greenery & beatification in Muchatha, Cianda, Ndenderu, karuri and Kihara	Total					<b>200,896,680</b>

## 4.2 Project Rationale, justification and Eligibility

**Table 5: The rationales and justification of the proposed projects.**

<b>Prioritized Projects</b>	<b>Rationale</b>	<b>Justification</b>	<b>Eligibility</b>
Urban Improvement Project inclusive of cabro/bitumen Roads, Non-Motorized Transport, Storm Water Drainage, Street lighting, Market shades, commercial auxiliary shops busparks, urban greenery & beatification in Muchatha, Cianda, Ndenderu, karuri and Kihara	The prevalence of motorized mobility, conflict of space use between the pedestrians and motorists	Free flow of people and goods is good for economic growth. A pedestrian town is a healthy and cohesive one.	Economic development shall be enhanced by better access and flow of traffic. Moreover, the project costs more than Kshs 50 Million.

### Detailed Projects Rationale and Justification

The proposed development were screened against the following set eligibility criteria.

1. The project cost should be as per the KUSP Project Operation Manual and budget.
2. The project promotes Integration
3. That the project is not fragmented.
4. The project to be completed and financed within one Financial year.
5. The project shall not lead to displacement of more than 200 people or 20 business enterprises.
6. That the project must be within the municipality.
7. That the project is impactful; socially and economically.
8. That the project should not cause irreversible impacts on environmental resources, natural habitat, cultural resources or cause immitigable occupational or health risks.
9. That the project does not entail acquisition of land for its development and therefore displacing individuals, families or business from land currently occupied.

#### **4.4 Projects' Work Plan**

The work plan shall be as indicated in Table 6.

#### **4.5 Project preparatory, design and implementation (table 4)**

The project preparatory, design and implementation shall be costed as indicated in Table 4.

4.6 Gantt chart

	Implementation													
	Implementation													

## 5.0 EXPECTED OUTCOMES

The prioritized projects by the urban board, county and the citizen forum happen to be in synch thus geared towards common results as described below.

**Economic growth and development.** The economic well-being of the municipalities will be enhanced through provision of job opportunities and economic productivity. This will lead to expansion of local industries and businesses and foster improved standards of living for urban residents.

**Infrastructure development-** This will be realized due to upgrading of transportation systems and networks (roads, public transit, etc.). Through proper planning and provision of service ducts there shall be expanded access to utilities (electricity, water, sanitation) and Improvement of public facilities such as (schools, hospitals, parks, etc.)

**Social benefits.** There shall be increased access to education and healthcare services, greater social and cultural integration and reduced poverty and inequality within Kiambu County.

**Environmental sustainability.** Implementation of the prioritized projects in the municipalities will ensure more efficient use of land and other scarce resources, reduce urban sprawl due to extreme levels of urbanization in the county and protection of green spaces. In order to ensure environmental sustainability, the implemented projects will adopt and adhere to sustainable infrastructure and technology.

**Improved quality of life.** While addressing climate resilience and environmentally safe projects the urban environment will be Safe and more livable while ensuring access to affordable housing and reduce congestion and pollution in the urban zones.

**6.0 IMPLEMENTATION MODALITIES AND TIMEFRAME**

**6.1 Implementation responsibility**

The Municipality shall be fully responsible for the implementation of the proposed projects. The project implementation team shall;

**6.2 Indicate how procurement will be organized**

Procurement shall be undertaken according to the Public Procurement and Disposal Act of 2015. The process shall include the advertisement of tenders by the municipality in a minimum of two advertisement channels, evaluated by experts before awards are made.

**6.3 Realistic assessment of what can be completed in the FY and what need to be scheduled for the subsequent FY. The assessment is as reflected in the Gantt chart and Table 7**

#	Activity*)	2024/2025						2025/2026						
		JUL-DEC	JAN	FEB	MAR	APR	MAY	JUN	JULY	AUG	SEP	OCT	NOV	DEC
1. #### ANNEX 4: PROJECT IDENTIFICATION SCREENING CHECKLIST

<b>Name of the project:</b>	Urban Improvement Project inclusive of paving blocks/ bitumen Roads, Non-Motorized Transport, Storm Water Drainage, Street lighting, Market shades, commercial auxiliary shops bus parks, urban greenery & beautification in Muchatha, Cianda, Ndenderu, karuri and Kihara
<b>Location of Project:</b>	Muchatha, Cianda, Ndenderu, Karuri and Kihara Wards
<b>Brief description of the project:</b>	Installation cabro/ bitumen Roads, Non-Motorized Transport, Storm Water Drainage, Street lighting, Market shades, commercial auxiliary shops busparks, urban greenery & beatification in Muchatha, Cianda, Ndenderu, karuri and Kihara

#### PROJECT IDENTIFICATION STAGE – PRIOR TO DETAILED PROJECT DESIGN

Questions to be answered (boxes to be ticked) prior to projects being added to the shortlist or included in a plan or budget:		NO	YES	MAYBE
<b>Assess possible adverse environmental impact</b>				
1.	Could the project lead to irreversible environmental impacts for beneficiaries or third parties?	✓		
2.	Could the project, if implemented, have a negative and irreversible impact on the natural habitat?	✓		
3.	Could the project, if implemented, have a negative impact on any cultural resources?	✓		
4.	Is there scope for concerns that the project during implementation or once completed may cause unmitigable serious occupational or health risks?	✓		
5.	Does the project require physical displacement of households?	✓		
6.	Does the project require economic displacement of more than 200 persons?	✓		
7.	Is the project likely to create or exacerbate conflict within communities or neighboring counties?	✓		

8.	Is there a possibility that the project would have significant negative impact on vulnerable and/or marginalized groups?	✓		
9.	Does the project require acquisition of land?	✓		
	<ul style="list-style-type: none"> <li>• If any of questions 1–8 is answered 'Yes', the project cannot be funded under UDG and should not progress to detailed design phase.</li> <li>• If question 9 is answered 'Yes', special procedures must be followed as outlined in the POM.</li> <li>• For every question answered with 'Maybe', the situation needs to be further investigated before taking a decision to go for full design and before including it in any budget for UDG funding.</li> <li>• Projects for which all answers 1–9 are 'No' – could go for detailed design.</li> </ul>

### Annex 5: Project Preparation Screening checklist

<b>Name of the project:</b>	Urban Improvement Project inclusive of paving blocks/ bitumen Roads, Non-Motorized Transport, Storm Water Drainage, Street lighting, Market shades, commercial auxiliary shops busparks, urban greenery & beatification in Muchatha, Cianda, Ndenderu, Karuri and Kihara
<b>City/Municipality</b>	Karuri
<b>Location of project:</b>	Muchatha, Cianda, Ndenderu, Karuri and Kihara Wards
<b>Brief description of the project:</b>	Installation of paving blocks/ bitumen Roads, Non-Motorized Transport, Storm Water Drainage, Street lighting, Market shades, commercial auxiliary shops busparks, urban greenery & beatification in Muchatha, Cianda, Ndenderu, Karuri and Kihara

Item No	Answer if the Project ....	Tick one		Maybe
		Yes	No	
<b>Environmental Impacts</b>				
1.	Adversely affect natural habitats nearby, including forests, rivers or wetlands?		✓	
2.	Requires large volumes of construction materials (e.g., gravel, stone, water, timber, firewood)?		✓	
3.	Uses water during or after construction, which will reduce the local availability of groundwater and surface water?		✓	
4.	Affects the quantity or quality of surface waters (e.g., rivers, streams, wetlands), or groundwater (e.g., wells, reservoirs)?		✓	
5.	Is located within or nearby environmentally sensitive areas (e.g., intact natural forests, mangroves, wetlands) or threatened species?		✓	
6.	Leads to soil degradation/erosion in the area?		✓	
7.	Creates waste that could adversely affect local soils, vegetation, rivers and streams or groundwater?		✓	
8.	Creates pools of water that provide breeding grounds for disease vectors (for example malaria or bilharzia/schistosomiasis)?		✓	
9.	Involves significant excavations, demolition, and movement of earth, flooding, or other environmental changes?		✓	
10.	Affects historically important or culturally important site nearby such as monuments.		✓	
11.	Results in human health or safety risks during construction or later?		✓	
12.	Involves inward migration of people from outside the area for use of services or other purposes.		✓	
13.	Is located in or near an area where there is an important historical, archaeological or cultural heritage site?		✓	
14.	Disposes of bush clearance residue and may cause the spreading of invasive species?		✓	
15.	Has the potential to introduce a non-native animal or plant species?		✓	
16.	Involve directly or indirectly handling of veterinary drugs and vaccines?		✓	
<b>Social Impacts</b>				

Item No	Answer if the Project ....	Tick one		Maybe
		Yes	No	
17.	Does the project require acquisition of land?		✓	
18.	Does the project require physical displacement of households?		✓	
19.	Does the project require economic displacement of persons (less than 200 persons)?		✓	
20.	Any adverse social impacts on individuals, households or communities		✓	
21.	Will restrict people's access to crops, pasture, fisheries, forests or cultural resources, whether on a permanent or temporary basis?		✓	
22.	Results in a significant change/loss in livelihood of individuals?		✓	
23.	Cause increased settlement or degradation of surrounding areas?		✓	
24.	Affects traditional groups/vulnerable and marginalized groups/minorities, or located in an area occupied by traditional groups/vulnerable and marginalized groups/minorities?		✓	
25.	Create tensions within communities or likely to lead to elite capture or grabbing of benefits by particular groups		✓	
26.	Adversely affects the livelihoods and /or the rights of women?		✓	
27.	Causes disadvantage to persons with disability or older persons or forgotten/low status groups within the community?		✓	
<b>Public Participation and Consultations and Grievance Redress Mechanisms</b>				
28.	Has not extensively consulted and included beneficiaries and project affected persons in the selection, planning and project benefits?		✓	
29.	Maintenance and management responsibilities have not been defined and accepted by concerned parties?		✓	
30.	Has setup Grievance Redress Mechanisms?	✓

**CHECKLIST FOR RESILIENT URBAN INFRASTRUCTURE DURING  
PLANNING, DESIGN AND BEFORE COMMENCEMENT STAGE**

<b>Name of the project:</b>	Urban improvement project inclusive of paving blocks/bitumen roads ,non motorised transport ,storm water drainage ,street lighting ,markets shades ,commercial auxillary shops busparks urbarn greenary and beautification in Muchatha ,Cinada Ndenderu Karuri And Kihara
<b>County</b>	Kiambu
<b>City/Municipality</b>	Karuri
<b>Location of project:</b>	Muchatha,Cianda ,Ndenderu,Karuri And Kihara
<b>Brief description of the project:</b>	Installation of paving blocks/bitumen roads ,non motorised transport ,storm water drainage ,street lighting ,markets shades ,commercial auxillary shops busparks urban greenary and beautification in Muchatha ,Cinada Ndenderu Karuri And Kihara

<b>PROJECT PLANNING, DESIGN AND BEFORE COMMENCEMENT STAGES</b>			
<b>Questions to be answered at planning, design stages and before commencement of construction</b>		<b>YES</b>	<b>NO</b>
1	Is the Project included in the County Integrated Development Plan (CIDP)?	✓	
2	Is the Project included in the Urban Integrated Development Plan (IDeP)?	✓	
3	Has a site-specific Project Report been completed, describing site specific environmental and social impact assessment, NEMA approval and license is obtained before commencement of works?	✓	
4	Was the Public consulted during project planning and design?	✓	
5	Were environmentally sensitive areas identified and included in the Project Report and any potential impacts detailed and mitigated?	✓	
6	Is the project located outside of riparian zones (as per Water Act 2016), or, when unavoidable, measures are included to enhance riparian corridors or is a crossing?	✓	
7	Has the Environmental Impact Assessment (EIA) or Project Report been prepared by a registered expert?	✓	
8	Were the following climate change projections integrated into the project design? <ul style="list-style-type: none"> <li>• All roof/site/road/storm drainage calculations have applied an appropriate climate change factor, based on regional rainfall intensity projections and project lifetime.</li> </ul>	✓	
	<ul style="list-style-type: none"> <li>• Maximum temperatures for material specification have incorporated climate change projections. This is most relevant for roads, in the specification of pavement materials. Other materials specified (incl. plastics) should consider extreme surface temperatures in their specification.</li> </ul>	✓	

	<ul style="list-style-type: none"> <li>Maximum temperatures for structural design have incorporated climate change projections. Structures could include buildings under urban economic and social infrastructure and disaster risk management.</li> </ul>	✓	
	<ul style="list-style-type: none"> <li>Sea-level rise – all infrastructure is above the sea-level with climate change or protection has been designed</li> </ul>	✓	
	Does the EIA (Project Report) highlight these climate change risks and details relevant to climate projections within the ‘climate change vulnerability assessment’?	✓	
9	Were the relevant design codes and guidelines for Kenya applied in the design of the project (or where not available Euro codes or other international guidelines), including other relevant design codes for structural resilience and included in project design report?	✓	
10	Is the ultimate discharge point of all roof/site/road/storm drainage to an existing watercourse or drain as identified in project report and design?	✓	
11	Do the designs and drawings illustrate incorporation of universal access elements in line with existing design guidelines and standards?	✓	
12	Do the designs and drawings illustrate incorporation of Green Infrastructure elements in line with existing design guidelines and standards.	✓	
13	Is there evidence of gender and inclusion considerations in project as well as mitigation measures in the social impact assessment in the Project Report?	✓	
14	Were the project designs and drawings prepared and signed off by a Registered Professional Engineer/Registered Architect?	✓	
15	Is the project fully costed, including contingency and budget is available before commencement of construction?	✓	
16	Is the project integrated into strategic sectoral plans?	✓	
17	Was a location hazard assessment included in the Project Report including any mitigation measures?	✓	
18	Do the designs and drawings illustrate inclusion of Green Infrastructure in storm water design?	✓	
	<ul style="list-style-type: none"> <li>If any of the questions 1 to 15 above is answered with a “NO”, the project can NOT be funded under UDG.</li> <li>Issues raised in questions 16 to 17 highly recommended for relevant projects.</li> </ul>
