1. INTRODUCTION

Section 117(5) of the Public Finance Management Act, 2012, stipulates that the County Treasury must consider the views of the Commission on Revenue Allocation, the public, interested individuals or groups, and any other legally established forums when preparing the County Fiscal Strategy Paper (CFSP). Furthermore, the Act requires county governments to engage in consultations during the preparation of county plans, the CFSP, and matters related to budgeting, economic planning, and financial management. Article 201(a) of the Constitution of Kenya, 2010, reinforces these principles by emphasizing transparency, accountability, and public participation in financial matters.

In compliance with these legal requirements, Kiambu County conducted public participation forums on the County Fiscal Strategy Paper (2025), budget estimates for the 2025/2026 to 2027/2028 financial years. These forums were held across all twelve (12) sub-counties on 19th and 20th February 2025. This report consolidates the feedback gathered during these forums and outlines proposed programs and projects recommended for inclusion in the 2025/2026 budget.

2. SUMMARY OF COUNTY BUDGET MAKING PROCESS

The budget-making process for county governments involves the following key stages:

1. **Integrated Development Planning:** This includes both long-term and medium-term planning.
2. **Financial and Economic Prioritization:** Establishing priorities for the county over the medium term.
3. **Revenue and Expenditure Estimation:** Developing an overall estimate of the county's revenues and expenditures.
4. **Adoption of the County Fiscal Strategy Paper (CFSP):** Formalizing the CFSP to guide financial planning.
5. **Preparation of Budget Estimates:** Drafting budget estimates and submitting them to the county assembly.
6. **Approval by the County Assembly:** The county assembly reviews and approves the budget estimates.
7. **Enactment of Appropriation Laws:** Passing laws necessary to implement the county budget.

8. **Budget Implementation:** Executing the approved budget.
9. **Accounting and Reporting:** Monitoring and evaluating the county’s revenues and expenditures.

The County Executive Committee Member for Finance is tasked with ensuring public participation throughout the budget process.

3. OBJECTIVES OF THE COUNTY FISCAL STRATEGY PAPER/MTEF BUDGET FORUM

The Medium-Term Expenditure Framework (MTEF) Sector Working Groups serve as a platform for stakeholder engagement in the budget-making process. The public participation forums aim to:

1. **Facilitate Stakeholder Engagement:** Provide a platform for stakeholders to identify social and developmental challenges and propose locally-driven solutions.
2. **Promote Inclusivity:** Encourage citizen involvement in planning, budgeting, implementation, monitoring, and evaluation, fostering a sense of ownership.
3. **Harmonize Interventions:** Reduce duplication of efforts and minimize resource wastage by aligning interventions.
4. **Enhance Transparency and Accountability:** Help citizens understand national resource constraints, prioritize needs, and promote openness in the budget process.
5. **Communicate Policies and Programs:** Share information on planned policies and programs while gathering feedback on their implementation.

7. CONCLUSION AND RECOMMENDATIONS

7.1 CONCLUSION

The public participation forums on the County Fiscal Strategy Paper (CFSP) for the financial year 2025/2026 provided a valuable opportunity for stakeholders, including members of the public, civil society organizations, private sector representatives, and other interested groups, to actively engage in the budget-making process. The forums facilitated discussions on key priority areas, enabling the identification of programs and projects that reflect the community's needs and aspirations.

The active participation of stakeholders demonstrated a strong commitment to collaborative governance and the shared responsibility of addressing developmental challenges. The insights gained from these forums will play a pivotal role in shaping the county's fiscal strategy and ensuring that resources are allocated efficiently and equitably to meet the needs of the people.

The inputs gathered during these sessions underscore the importance of transparency, inclusivity, and accountability in county financial planning. Public participation remains a vital tool for fostering collaboration between the county government and its residents, ensuring that budgetary allocations align with development priorities. The feedback received will be instrumental in shaping final budgetary decisions and promoting efficient service delivery.

7.2 RECOMMENDATIONS

Based on the findings and contributions from stakeholders, the following recommendations are proposed for consideration:

1. **Integration of Public Inputs**-The county government should incorporate the priority projects and proposals gathered from the public forums into the 2025/2026 budget to ensure that development initiatives align with citizen needs.
2. **Enhanced Public Engagement** - Future public participation forums should be expanded to accommodate a broader segment of the population through enhanced sensitization and engagement strategies.
3. **The use of digital platforms and community based forums** should be strengthened to increase outreach and inclusivity.
4. **Improved Budget Transparency** - The county should provide regular updates on budget implementation to keep citizens informed of project progress.
5. **Publishing detailed reports** on how public feedback has been integrated into final budget allocations will enhance trust and accountability.
6. **Strengthening Monitoring and Evaluation** - A robust monitoring and evaluation framework should be established to track the implementation of prioritized projects and assess their impact on service delivery.
7. **Community representatives** should be actively involved in tracking project performance to ensure efficiency and effectiveness.
8. **Capacity Building and Awareness Creation** - Continuous public education on budget processes, financial planning, and county development priorities will empower residents to make more informed contributions in future engagements.
9. **Training programs for stakeholders**, including ward representatives and civil society organizations, should be enhanced to improve their understanding of fiscal policies and budgeting.

7.3 WAY FORWARD

The recommendations provided in this report should serve as a guide in finalizing the 2025/2026 County Fiscal Strategy Paper and Medium-Term Budget Framework. The county government is encouraged to strengthen collaboration with all stakeholders, ensuring that public participation remains an integral part of decision-making in financial planning and service delivery.

By implementing these recommendations, the county can enhance resource allocation efficiency, foster economic growth, and improve the overall well-being of its residents.
